

3 days Watercolor Course & Workshop >> 2 rounds in a week: Monday to Wednesday & Thursday to Saturday with [Majid Modir](#) and the guest teacher [Mikael Jacobsson](#)

BACKGROUND

The annual painting trip out in nature and on the islands began 6 years ago on the Swedish west coast. It was a great success, packed with participants, both from Sweden and abroad. Now, in the summer of 2025, we continue to Stockholm's archipelago, starting at the southernmost point, the island of [Landsort](#).

The workshop is arranged by the the watercolor school [Il Punto](#) run by Majid Modir in Tuscany since 2017. The main focus is learning watercolor techniques and practicing it in painting live on spot ([en plein-air](#)). We usually have different themes and guest teachers each time.

As requested, this time we will focus on the endless theme of WATER - suitable for staying on an island. We are going to have the great artist **Mikael Jacobsson** as the guest teacher. Majid & Mikael complete each other, so the participants get the opportunity to see both different styles and varying frames of reference, and angles of approach.

ABOUT LANDSORT

Landsort, or Öja as it is actually called, is located in the southernmost part of Stockholm's archipelago. Here you will be met by beautiful nature, rich animal life and genuine archipelago settlements.

On the island there is a little shop and two restaurants. You swim by the rocks and walk across the island, the roads from north to south. The island's most famous attraction is the magnificent lighthouse, which is Sweden's oldest.

Another destination is Batteri Landsort is a wonder-underground defense facility from the Cold War which is now a museum.

Read more about the archipelago's cultural history [HERE](#).

Landsort is a unique environment for watercolor painters! Places that provide the interesting perspectives. The sea, the rocks, the houses, horizons, waves, storm clouds. It is easy to find nice places for still or dramatic perspectives in order to paint or sketch. Find some tips ahead of time [HERE](#).

Here there is both a small museum to visit, and many sculptures that are on display all year round. Thus works by Landsort's two own artists, Ole Drebold and Annelie Wallin. Reed and see more [HERE](#).
